Fitness Matters

Your body is your temple. Our health and fitness updates provide effective workout routines, healthy recipes, and tips to maintain a balanced lifestyle.

Holiday Health Risk: Digestive distress

Gastrointestinal symptoms, including vomiting, diarrhea and stomach cramps, often arise during the holiday stretch. The rapid transmission of digestive viruses can lead to familial or workplace outbreaks, prompting a spike in hospital visits as individuals seek relief from severe symptoms or dehydration.

In addition to viruses, overindulgence of holiday foods and treats, especially if you have high blood pressure, diabetes or other cardiovascular disease, might earn you a trip to the emergency room.

"Many of our favorite seasonal snacks and meals are loaded with high salt or sugar content," cautions Dr. Cardillo. "It's easy to overdo it during the holidays but remember that a little goes a long way." — Adventist Health

True education includes an understanding of Jesus as our Savior:

In the highest sense the work of education and the work of redemption are one, for in education, as in redemption, "other foundation can no man lay than that is laid, which is Jesus Christ." "It was the good pleasure of the Father that in Him should all the fullness dwell"

[1 Corinthians 3:11; Colossians 1:19]. (Education, p. 30) — Ellen G. White / adventist.org

Family Togetherness

Strengthen your family bonds with our guidelines on Family Togetherness. Discover activities, shared goals, and traditions that foster love and unity.

Fun & Easy Family Worship: Keep a book of prayer requests.

Open it on the floor in the middle of your family circle as you pray. Pray conversationally for each one, with different family members taking turns contributing to one family sized prayer. Keep a record of ways you know God's listening.
